Professional Experience

Freelancer | Dec 2025 – Now
WordPress/WooCommerce Support Engineer/Developer

Building WordPress/WooCommerce websites, troubleshooting issues with design, functionality, domains, DNS, Email, Newsletter and more.

Automattic | Remote | Jun 2019 – Apr 2025
Support Engineer

Resolved customer inquiries via email (Zendesk) and live chat supporting WordPress.com and WooCommerce platforms, enhancing user satisfaction and product usability. Resolved issues related to website hosting, domain management, DNS configuration, email integration, plugin/theme functionality on WordPress, querying databases and more. Used SQL queries to troubleshoot and resolve issues. Troubleshot and optimized WooCommerce plugins and extensions, including payment gateways (Stripe, PayPal, WooPayments), synchronization tools (Square, Google, Facebook), and advanced modules like Bookings and Subscriptions. Also troubleshot API integration issues with Google, Facebook, Square and more. Enhanced onboarding and learning experience for new hires by revising and maintaining training materials as part of the training guild.

- Improved customer experience by resolving technical issues and guiding users in building visually engaging websites via expert support on domains, themes, hosting, and plugins.
- Handled 500+ tickets/month while maintaining 90%+ CSAT scores.

- Improved user support experience by revamping over 100 customer-facing documentation assets within the Documentation Guild.
- Developed APAC workforce through a 6-month talent acquisition initiative, supporting regional growth objectives.
- Delivered multiple trainings to the team, resulting in improvement in resolution time.

Teradata | Hyderabad | Sep 2016 – Apr 2018
Senior Manager, Support

Boosted incident response efficiency and service continuity by managing L1 and L2 support functions. Acted as an escalation point for clients, product support teams and engineering. Oversaw daily technical support activities, ensuring operational consistency and timely issue resolution. Steered operations management, talent acquisition and separation, training oversight, performance evaluations, cross-departmental alignment, and employee engagement strategies.

Deloitte | Hyderabad | Aug 2005 – Sep 2016
Manager, Service Desk

Started as a support agent providing IT support to Deloitte colleagues. Went on to lead full-cycle workforce operations from recruitment to exit, ensuring seamless employee transitions and compliance with HR protocols. Enhanced individual and team performance; assessed contributions and delivered constructive evaluations. Elevated SLA compliance and customer satisfaction through implementation of quality standards and service delivery KPIs, reducing resolution time and improving first contact resolution rates.
